## 5. DETAILED PROCESS FOR REQUESTED EXIT OPTIONS

### Sell Active Interest Account Portfolio

By selecting this option, I acknowledge that my account will be placed in the waiting queue for an opportunity to sell my active portfolio in the Interest Account. Once a quota becomes available, I will receive an offer from Cryptonomy's partners who are willing to purchase all of my active positions. This sale ensures that I will retain the value of my assets while receiving between 30% to 80% of the expected total profit from the active products within the Interest Account.

I understand that the sale will only occur once I provide my explicit, personal confirmation in my Cryptonomy account. Once I confirm, the transaction will be completed within up to 3 hours from the time of my confirmation. Prior to the completion of this transaction, I acknowledge that a dedicated financial team manager will contact me to provide detailed instructions, discuss the terms of the sale, and ensure that all aspects of the transaction are agreed upon and understood.

### Request Exit Due to Extended Contract Duration

If I select this option, I understand that a financial manager will contact me to provide full details on where and how my assets are being utilized within active positions. I will be presented with **options** to either receive compensation from existing insurance-backed assets or place my active products into the Portfolio Marketplace program for potential sale.

The financial manager will consult with me to identify my investment objectives and preferences, **ensuring that I select the most advantageous** option based on my current circumstances. Once we agree upon the most appropriate course of action, the

Process will be initiated in accordance with the selected option.
